AGRICULTURAL OUTLOOK CHARTS

1938

Charts for Local Outlook Meetings

The charts in this list are those which are thought to be most suitable for use by extension workers in farmers' outlook meetings. These charts have been simplified from year to year and have been brought up to date so far as data were available for the Outlook Conference in October 1937. Copies of these charts in the wall-size, 30 x 40 inches, will be made by the Bureau on order for 10¢ each on blueprint paper, 30¢ each on black-line paper, or 75¢ each on chart cloth (blue-line). The source of the data for keeping these charts up to date, if available currently, is indicated in the list.

Other charts or maps issued by the Bureau of Agricultural Economics not included in the chart books or this list are supplied at 75¢ each on bromide paper or \$1.25 mounted on cloth. For a complete list of the Bureau's charts see "Agricultural Economics Charts," mimeographed, June 1937.
